

Alimos Base

Alimos (Kalamaki) Marina

It is located at the south west of Athens and it takes about 20-25 minutes to the city center by taxi. Alimos marina is a very large one so in case you use a taxi to get there, do not let the driver leave you at the entrance as you will have to walk several minutes to your yacht or our meeting point.

Port docking is made with mooring lines that lay between the piers. While maneuvering in the port you should be careful of those lines. Electricity and water is provided through pillars. Coffee shops and restaurants in the marina can provide WiFi service. There are also showers and toilets to use while you are there.

Our meeting point is at the end of pier 6, close to the main entrance of Alimos marina. Once you land, please contact our representative.

In case you need a transfer or any kind of extra service please let us know enough before your charter start date.
